

Are you aware of the forthcoming changes to apprenticeships?

Does the Apprenticeship Levy apply for my business?

Do you understand how the Levy will work & what tools are available to support you?

In spring 2017 the way the government funds apprenticeships in England is set to change. As a result some employers will be required to contribute to a new apprenticeship levy, and there will be changes to the funding for apprenticeship training for all employers.

You can find out more about the benefits apprenticeships can bring your organisation and the way they are being reformed by joining us for this interactive session at Petroc North Devon Campus on **Wednesday 15 February 2017** at 8.30am. Refreshments will be available.

If you would like more information please call our Apprenticeship team on 01271 852419.
