

Keeping safe is part of the fun!

Staying healthy is a serious business and these cool hand sanitisers encourage children to learn and play safely.

Our freestanding child-friendly units can be placed exactly where you need them and the unique designs encourage children to engage and learn the importance of clean hands.

Dymond's very own Gerry Giraffe is available from stock; but we can also custom make to suit your brand and current hand sanitising system*

Email Sue@dymondengineering.co.uk or call her on 01271 372 662 or 07525 351754 for a friendly chat about tech specs and next steps!

*minimum orders apply for bespoke units.

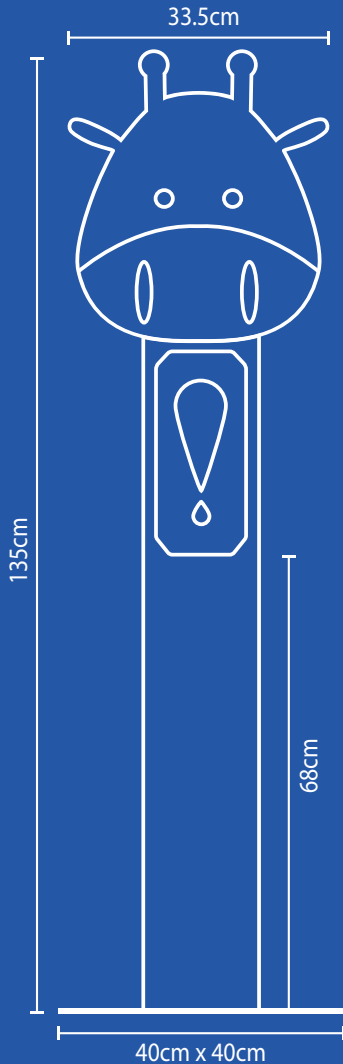

Another great product made in Devon by

Dymond Engineering, Combrew Lane, Barnstaple, North Devon EX31 2ND

How big is Gerry?

Child-safe engineering

-  Robust steel construction
-  Stable in use
-  Easy-clean powder coated finish
-  Holds all widely available sanitisers
-  Designed for indoor and outdoor use
-  Bespoke designs on request*

We designed Gerry specifically to encourage children to regularly sanitise their hands, by making it a fun part of their learning and play routine.

Wherever you have children in your care: schools, pre-schools, soft play areas, doctors' surgeries, shops or family pubs, our fun-to-use hand sanitisers will help keep children safe.

We can design units to suit your brand and fit your needs.

Gerry is just one of our range of sanitiser stands...
