

INTRODUCTION TO

SOLIDWORKS 3D CAD®

8 Week Course | Fridays starting on 29 April 2022 | 09:00 – 13:00

UKCRF FREE SolidWorks Introduction to CAD course

Solidworks® 3D CAD solutions provide easy to learn yet extremely powerful functionality that shortens product develop & reduces costs. All while improving quality.

Through funding from the UK Community Renewal Fund, Petroc has developed a classroom based introductory course for beginners.

The course will run for 30 hours over 8 weeks covering the following CAD concepts:

Design Intent | Design for manufacture | Introduction to the Solidworks interface
Creating a custom property list for parts and assemblies
Setting document properties | Preparing parts for 'additive manufacturing'
Introduction to the process of part and assembly creations

- You will be required to undertake self-study as part of the course
- No previous experience is required
- Tutor: Andy Wilson-Rudd
